

SLAB CASTING

Tooling - BOTTOM BLOCKS/STARTING HEADS

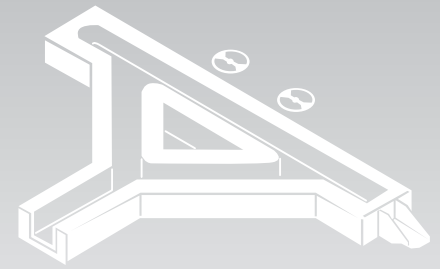

Description:

RODABELL designs and manufactures bottom blocks for direct chill casting systems. We currently offer a variety of shapes and formats depending on the dimensions of the casting table/pit.

We currently manufacture Bottom Blocks from different Aluminum alloys.

RODABELL's engineering department is able to develop drawings to manufacture any bottom block format that we do not have in our product range.

Application:

Bottom blocks/Starting heads for Direct Chill casting systems.

Advantages:

- 1 piece assembly
- Reduces costs
- Easy to use
- Safe to use
